1. Career Trainee [REDACTED] a member of the July 1970 Class, is the first trainee on interim assignment to publish a Special Article in the OCI Current Intelligence Weekly Summary. 2. [REDACTED] DDS Records Officer, and [REDACTED] 25X1A9a [REDACTED] OL Printing Services Division, examined CTP personnel files on 22 January. Agreement was reached to microfilm approximately 11 cubic feet of old files that are used on an infrequent basis, but are important for research purposes. The microfilming will be done by the CTP administrative staff as time permits. The only possible obstacle to the project is the acquisition of a reader/printer to permit use of the microfilmed records.
